

Creative storytelling for change:

Learn how to create your own
podcast, zine, and animation video

August 9th, 10th, 11th

Share-Net Netherlands' invites young people everywhere to join us for a series of workshops highlighting the need for more youth-created knowledge in celebration of International Youth Day on 12th August.

What are these workshops?

This series will include three 1-hour workshops across three days, with each workshop focusing on how to develop a different type of creative knowledge product.

If you attend the workshops, we'll share more tips and tricks with you on how to develop your podcast, zine, or animation video!

Objectives:

- Share beginner knowledge on how to develop a podcast, zine and animation video from youth facilitators to youth participants.
- Highlight the need for more youth-led and youth-owned knowledge on issues that impact them.
- Encourage young people to take a leading role in creating knowledge about issues that impact them.
